EDUCATION

Brown University · *B.S. Computer Science & Literary Arts* Providence, RI · May 2026
Coursework UI/UX, Typography and Fonts, LLMs and Generative AI, Computational Linguistics

WORK EXPERIENCE

Product Design Intern, HBO Max Streaming App · *Warner Bros. Discovery* New York, NY · Jun – Aug 2025

- Prototyped 4-agent workflow with Gemini API and Codex to generate AI-personalized descriptions, achieving +4% boost in content clarity
- Pitched AI-powered app feature to PMs by designing interactive Figma prototype across web, mobile, and CTV
- Enabled design system rollout by contributing reusable components and defining new UI interactions
- Collaborated with engineers and UX researchers to build A/B preference testing tool to review AI outputs
- Secured investment from CPO, VP, and senior leaders by presenting product strategy and prototype results

UX Design and 3D Modeling Intern · *CareerDay (Education Startup)* Providence, RI · Sep – Dec 2024

- Designed investor-facing Figma prototype for Future Founders Phase 2 startup, selected for FounderCon 2024
- Simplified navigation and reduced clicks across 5 user flows by rapidly iterating solutions based on 10+ user interviews and 5+ usability tests
- Streamlined content discovery by identifying high-demand categories and introducing sort and filter functionality

UI/UX Designer · *Mi Fonda (Food Delivery Startup)* Providence, RI · Apr – May 2024

- Awarded best design team out of 3 for inventing gamified rewards system that incentivized larger orders
- Gained CEO and CTO approval for app redesign in 5 weeks by iterating from concept sketches to wireframes to high-fidelity Figma prototype

PROJECTS

AI Engineer, Readibly Chrome Extension · [Code](#) Providence, RI · Mar – May 2026

- Stack: TypeScript, React, Chrome Manifest V3, Claude Code, Claude API, Figma
- Built Chrome extension with Claude API to simplify Terms of Service into bulleted summaries with flagged risk clauses
- Accelerated product life cycle by translating Figma mockups to production code using Claude Code
- Designed React component library that synced user-defined preferences across all views for consistent user experience
- Reduced API costs by configuring AI chatbot with guardrails to prevent out-of-scope queries

Designer/Engineer, Personal Portfolio · [Site](#) Providence, RI · Sep – Dec 2025

- Stack: TypeScript, React, CSS, Claude Code, Lovable, Anima, Glyphs
- Leveraged Claude Code and Lovable to rapidly prototype concepts and ship strongest iteration to production
- Distinguished personal brand by designing custom typeface in Glyphs, applying typographic principles of kerning, tracking, and visual hierarchy
- Explored CSS keyframe animations and SVG filters to incorporate physics-based motion and delight users

Motion Designer/Engineer, Binary Escape Game · [Site](#) Providence, RI · Jun – Aug 2024

- Stack: JavaScript, HTML, CSS, Firebase, Blender, After Effects, Illustrator
- Coded CSS animations in 8-round puzzle adventure game for character movement and level transitions
- Created visual world by designing logo in Illustrator, creating motion graphics in After Effects, modeling and animating 3D characters in Blender
- Resolved cross-browser compatibility issue by migrating motion graphics from WebM to MP4 for consistent rendering across Safari, Chrome, Firefox, and Edge

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, CSS, HTML, Python, React, Node.js
Design	Figma, Glyphs, Adobe Illustrator, After Effects, Photoshop, Blender
Vibe Coding	Cursor, Claude Code, OpenAI Codex, Lovable, v0 by Vercel, Anima
