EDUCATION

Brown University — B.S. in Computer Science and Literary Arts Providence, RI | Graduation: May 2026

- Coursework: UI/UX, Typography and Fonts, LLMs and Generative AI, Responsible Computer Science
 - Extracurriculars: Emma Bowen Foundation, Women in Computer Science, Rewriting the Code
-

WORK EXPERIENCE

Product Design Intern, HBO Max Streaming App, Warner Bros. Discovery New York, NY | Jun – Aug 2025

- Pitched new AI-powered carousel during design system migration, adding reusable UI kit components and delivering interactive Figma prototype across web, mobile, and CTV
- Designed and delivered initial POC for AI-personalized descriptions by prototyping multi-agent workflow with Gemini and Claude Code
- Protected proprietary IP and user data by creating model input guidelines to ensure no sensitive content was fed into external AI models
- Partnered with engineers and UX researchers to build quality assurance tool for human evaluation of LLM outputs
- Gained executive buy-in by presenting AI design decisions and business goals to CPO, VP, and senior leaders

UX Design and 3D Modeling Intern, CareerDay (Education Startup) Providence, RI | Sep – Dec 2024

- Redesigned website for multilingual students based on pain points found in 10+ user interviews and 5+ usability tests
- Validated inclusive design by auditing against WCAG standards using accessibility testing tools
- Simplified navigation by reducing clicks across 5 user flows and restructuring search and filter categories
- Identified user access patterns by conducting competitive analysis of 4 leading learning platforms

UI/UX Designer, Mi Fonda (Food Delivery Startup) Providence, RI | Apr – May 2024

- Awarded best design team out of 3 for gamifying food delivery experience in web and mobile app redesign
 - Drove 76% increase in stakeholder satisfaction by iterating from sketches to low-fidelity wireframes to high-fidelity Figma prototype based on feedback
 - Secured continuation of redesign initiative by advocating for user needs and presenting learnings to CEO and CTO
-

PROJECTS

Designer/Developer, Readably Chrome Extension • [Code](#) Providence, RI | Mar – May 2026

- Technologies: TypeScript, React.js, Chrome Manifest V3, Claude API
- Designed and built AI-powered legal summarization tool to simplify Terms of Service into bulleted summaries with flagged risk clauses
- Conducted user interviews across technical and non-technical users to identify default settings for customizable flagging system
- Defined chatbot interaction model with guardrails to prevent off-topic responses and enforce bullet formatting
- Applied responsible AI practices like source attribution and summary disclaimers to prevent over-reliance on AI-generated output

Designer/Developer, Personal Portfolio Website • [Site](#) Providence, RI | Sep – Dec 2025

- Technologies: TypeScript, React.js, Claude Code, Lovable, Anima
 - Built production-ready portfolio using AI-native, design-to-code workflow with Claude Code and Lovable
 - Accelerated design cycles by prompting Anima to iterate UI visuals based on design reviews with industry experts
-

TECHNICAL SKILLS

Design Tools: Figma, Adobe Illustrator, Photoshop, After Effects, Blender

Languages: HTML, CSS, JavaScript, TypeScript, Python

Generative AI Tools: Claude Code, Lovable, Cursor, v0 (by Vercel), Anima
